

Sulky Stabilizer Quick Reference

Sulky® Solvy™

Lightweight Water Soluble Stabilizer!

It's like magic! The perfect stabilizer and transfer agent that dissolves in water.

Ideal for:

- Monogramming
- Computerized Embroidery on Napped Fabrics
- Cut Work
- Lace Work
- Hand-turned Appliqué
- Quilting
- Fagotting
- 3-D Appliqué
- Edge Work and more!

Super Solvy™

Heavier Water Soluble Stabilizer

Twice as thick, heavy and strong as the Original Sulky Solvy. A firm see-through Stabilizer that dissolves in water like magic! Perfect as a topping, pattern guide or as a backing stabilizer.

Ideal for:

- Monogramming
- Computerized Embroidery on Napped Fabrics
- Cut Work
- Lace Work
- Hand-turned Appliqué
- Quilting
- Fagotting
- 3-D Appliqué
- Edge Work and more!

Ultra Solvy™

Extremely Firm & Stable Water Soluble Stabilizer

The firmest, clearest traceable Stabilizer that dissolves in water like magic!

Ideal for:

- Hoopless Embroidery
- Computerized Lace Embroidery
- Quilt Patterns
- Lace Work
- Buttonholes
- Edge Work
- Thread Sketching
- 3-D Embroidery Designs
- Cut Work
- Monogramming
- Spun Lace

- 3-D Appliqué
- Shadow Work and More

Sulky® Sticky™

The Self-Adhesive Tear-Away Stabilizer on a paper-backed release sheet. Ideal for Hooped, Computerized Machine Embroidery.

It's easy to hoop Sulky Sticky with the paper side up, the way you would hoop a piece of fabric. Using a small sharp knife or straight pin, score the paper and pull it away from the adhesive layer; finger press your fabric to the Sulky Sticky. Put the hoop on your sewing machine, and embroider. Or, take the hoop for your embroidery machine and use only the larger outside portion. Peel the paper backing off the Sticky and stick the adhesive side to the bottom of the outer portion of your hoop. Place your fabric on the hoop and finger press to adhere. Put the hoop on your sewing machine, and embroider. Small items can be embroidered without basting them to the stabilizer, just finger press them to the Sulky Sticky. Make ready-to-wear easier to embroider; on areas like cuffs, collars, pockets and socks – just press them onto the Sticky and embroider without any additional preparation.

Sulky Stiffy™

Provides great stability combined with effortless removal!

A Crisp, Firm Tear-Away Stabilizer to use when Satin Stitching, Monogramming, Appliquing and Embroidering to prevent tunneling, distorting of stitches, and puckering of fabric. Professional Embroiders use one, two or three layers as a backing to stabilize virtually any fabric.

Cut-Away Soft 'n Sheer™

Permanent, Textured, Non- Woven Nylon that is Ultra-Soft Next to Skin

Provides great permanent stability to stitch computerized embroidery designs, appliqués, and monograms on lightweight knits and wovens. Ideal for dense embroidery designs, open-weave fabrics, or lightweight fabrics with a complex design. Ideal for Trapunto.

With excellent stretch resistance, Soft 'n Sheer eliminates pulling or sagging from the surrounding fabric not only during the stitching process, but during washing and wearing.

Cut-Away PLUS™

Permanent, Mid-Weight Non-Woven, with a Soft Hand and Excellent Stability

Provides great permanent stability to stitch computerized embroidery designs, appliqués, and monograms on outerwear like jackets, sweaters and sweatshirts. Ideal for open-weave fabrics with a complex design, high detail embroidery designs, or dense designs.

Tear-Easy™

Soft, Lightweight, Tear-Away

Provides great stability combined with effortless removal that doesn't pull, tear or distort stitches. Professional embroiders use one, two or three layers of Sulky Tear-Easy to stabilize virtually any fabric. Each layer is then easily torn away separately to prevent the pulling, tearing or distorting of stitches that can occur when tearing away a single layer of a thicker heavier stabilizer.

Ideal for:

- Appliqué
- Monogramming
- Computerized Embroidery
- Quilting
- Edge Work and more!

Heat-Away™

Heat Disintegrating Brush-off Stabilizer

Special heat-sensitive woven fabric disintegrates with a hot, dry iron, then brushes away easily. It's like muslin that vanishes. Sulky Heat-Away is easy to see through to trace designs onto it for easy stitching. Because it is woven and firm, it is easy to stitch on when creating Machine Arts. Not compatible with liquids. Perfect for any project where wetting or tearing would cause distortion to stitches or damage to your base material.

Ideal For:

- Spun Lace
- Cut Work
- Faux Woven Fabric
- Computerized Embroidery
- Serger Lace
- 3-D Appliqué

Totally Stable™

Iron-on Tear-Away Stabilizer

Perfect for knits and stretchy fabrics

Totally stabilizes virtually any fabric in seconds with no time-consuming pinning. Eliminates annoying shifting, sliding and puckering of material. Excess then tears away easily, leaving no sticky residue.

Ideal For

- Appliqué
- Punch Needle
- Quilt Templates
- Monogramming
- Charted Needlework
- Pattern and Template Making
